WIRELESS
HOME AUTOMATION
TOUCH & PLAY

AUTOMATE YOUR HOME IN 24 HOURS

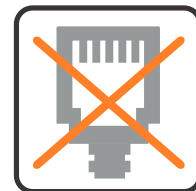

Pioneering innovation to develop India's first Wireless Home Automation Solution with Cable Free Installation. What's more, it installs in 24 hours.

As a leader of Home Automation in India, with more than 20 years of expertise in the space of domestic electricals, Toyama blends its limitless zeal for innovation with strong foundations in manufacturing. This helps us deliver an unrivaled range of breakthrough solutions for tomorrow's needs. Born in the silicon valley of India, we take inspiration from the innovative spark of Bangalore's IT industry to indulge in our passion of creating simple to use, intelligent products for smart living.

Wireless Control

Our advanced controller helps you stay connected through your iPad, Smartphone or a desktop.

Cable free Installation

Our ZigBee enabled devices communicate wirelessly with the Controller. This eliminates the hassles of Cat5 cabling, resulting in cable free installation that is not just quick and simple, but also scalable.

WIZHOM - AUTOMATES EVERYTHING

With Wizhom's TGate, you control everything. From simple lights, fans and appliances to security sensors, curtain motors and entertainment systems.

Control your Appliances

Our Touch Switches help you control lights, fans, geysers and A/C with a touch of your finger.

Know your visitors

Our IP Cameras help your visitor management needs like no other.

Secure your home

Our movement sensors, glass break sensors, smoke and gas leakage sensors give you the best safety and security you can get.

Entertain your guest

Our ZigBee IR learning devices help you control with a Tablet/Smartphone all your home theater gadgets.

Create Stunning new Ambiances

Our Truglow LED Dimmers help you control your RGB LED lights to create ambiances in stunning new shades.
