WIZHOM - FOR ALL STAGES

Construction stage

WIZHOM can be Planned during the construction stage of your building.

Renovation stage

WIZHOM can be installed while renovating your house by simply replacing existing devices.

New house

WIZHOM can be installed as an alternative in your new house just before moving in.

WIZHOM - FOR ALL BUDGETS

Automate single room

Start by installing WIZHOM Automation for a single room.

Add more rooms

Automate more rooms by adding additional wireless devices in the rooms.

Automate entire house

Scale up to our fully loaded complete Home Automation solution.

WIZHOM - AUTOMATES EVERYTHING

Manufactured by Toyama and developed in collaboration with the brightest minds of the IT industry with 20 years of insight into international consumers and installers.

The revolution TGate Controller is designed to automate everything. Control lights, fans water heaters, sprinklers and air conditioners by connecting wirelessly with the Touch Switches that control them. Secure your home with our wide range of ZigBee sensors and detectors. Entertain your guest by creating stunning new ambiances along with our IR Blaster that make your home theater system much more enjoyable.

TGate with built in LCD clock and WiFi router is the 3rd generation Toyama Gateway at the heart of communication with the devices. With 3 USB ports, one HDMI port and an Ethernet port, you can stay connected from where ever you are with a WiFi/4G enabled smart phone or a tablet.

MOOD - LIGHTING

Control your RGB LED lights to create stunning new shades.

Turn any combination of lights into mood lighting. At the touch of a button you can create the desired ambience by turning on certain LED lights and dimming them to the required level. You can even choose different colours for different scenes.

SECURE - YOUR HOME

Our movement sensors ensure security when you are at home and sleeping or away on a holiday.

HOME - THEATER

Our ZigBee IR Blaster helps you control with a Smartphone/Tablet all your home theater gadgets and air conditioners.

SAFETY

Our smoke and gas leakage sensors give you the best safety you can get.
